

## OUR MISSION

To make a positive difference in the lives of our residents by personalizing care, encouraging independence, preserving dignity, protecting privacy, and fostering friendships.

## OUR PHILOSOPHY

Every senior deserves to live a full and satisfying life. We are committed to providing the support our residents need to live the fullest and most satisfying lives, while treating them with the respect and dignity that they so well deserve.

Woodland has an Aging in Place philosophy. We are dedicated to helping our residents receive the care they need at the time they need it. We will work closely with each resident, their family and physician to deliver solutions to extended care needs.

## HOMELIKE SETTING

The warmth of our facility, our employees, and our residents is immediately evident. The specially designed environment looks and feels like a home and features beautiful and inviting common areas, spacious private suites, well-designed private bath with walk-in shower with seating and grab bars, as well as a sun porch with lots of natural light and an activity area that can be used for family gatherings or private parties.

## INDIVIDUAL CARE PLANS

Personal care plans are designed to reflect individual preferences and existing capabilities, as well as support diminishing skills. Each plan is carefully developed (and regularly updated) after extensive input from the resident, his/her health care providers, and family. The highly trained, professional, and compassionate nursing staff carefully implements and monitors each personal care plan.
